# Geomatics

## Mapping Your Future

Careers in the profession  
of surveying and mapping

---

**Florida Surveying  
and  
Mapping Society**  
[www.fsms.org](http://www.fsms.org)

## The Profession

The Profession of Surveying and Mapping utilizes cutting edge technology to measure the features of the earth in order to establish the location of property lines, ensure the accuracy of construction projects, and produce updated maps used by a variety of other professionals.

The Profession is growing rapidly, and the demand for licensees and technicians is higher than ever. Consider a career in surveying and mapping if you have the following interests:

**Math**  
**Science**  
**Computer Technology**  
**History**  
**Law**

## Education

A baccalaureate degree in Geomatics, or similar subject matter, is required to become licensed in the state of Florida. Geomatics includes the fields of Geographic Information Systems, Spatial Information Systems, Spatial Information, Management, Surveying and Mapping and Remote Sensing.

The University of Florida offers the only ABET-accredited Geomatics program in the state.

### UF Geomatics Graduates Can Expect:

- **100% Job Placement**
- **Starting salaries between \$40,000 — \$60,000, often including signing bonuses**
- **50% chance of business ownership within five years**

## What FSMS Can Offer

We are the premier organization that represents the surveying and mapping profession. As a full-time Geomatics student you will receive complimentary membership each year you are enrolled in the program. You will have the opportunity to earn scholarships, learn more about the profession, network with surveyors and mappers, and attend our annual conference.

Contact the Florida Surveying and Mapping Society with your questions about joining this diverse and well paid profession!
